EXPERIENCE

Front End Developer

Dec '20 - Present

- Using advanced level of HTML5, CSS3, and pure CSS layout, (**tableless layout**).
- Expertise in analyzing the DOM layout, JavaScript function, Cascading Styles across cross-browser using Developer Tools.
- Developing Websites using framework like Bootstrap.
- Developing application level CSS using CSS preprocessor i.e. SASS
- Working on CSS animations for better user experience across the browsers.
- Developing client side validation code using JavaScript and JQuery.
- Identifying the way to increase the search engine optimization SEO and social media friendly.
- Proficient in converting **PSD to HTML**.

PROJECTS

E-Commerce Website

- Developed Front End of an E-Commerce Website **ShopMax** to showcase products.
- ShopMax also ensures a **responsive design** that promises a smooth mobile shopping experience.
- ShopMax works with popular browsers and retina screens, too.
- Features** of ShopMax include the top bar, sticky menu, **exclusive item countdown**, social media icons, and all the necessary inner E-Commerce page.

Restaurant Website

- Developed Front End of a Restaurant Website **MugHouse** to target the restaurant and food industry.
- Moreover, MugHouse is **responsive** and mobile-ready, that promises a smooth mobile experience.
- And if it happens that **dark layout** is your favorite, you will love MugHouse ten times more.
- Features** of MugHouse includes sticky menu, hover effect, a blog, **book a table form** with **Google Maps**, social media icons, and all the necessary inner page.
